access

Reports

Information to
decide

| Optimo POS modules

1 General invoicing

Sales and invoicing issuance at the point of sale, fast and orderly, to serve customers without delays.

2 Inventory

Stock control to keep inventory up to date and avoid stockouts or overstock.

3 Manual purchasing

Recording of purchases and merchandise replenishment, keeping inventory current.

4 Standard reporting

Business reports to track sales and inventory and make better decisions.

Cloud hosting advantages

- ✓ Remote access from anywhere with an internet connection.
- ✓ Scalability to grow without additional infrastructure investment.
- ✓ Automatic updates and maintenance by our team of experts.
- ✓ Greater security with automated backups and advanced data protection.

Built for your industry

Pharmacies

Product, sales and inventory control.

Retail / Stores

Fast invoicing and stock control.

Distribution

Purchasing, inventory and reporting integrated.

Why Optimo POS?

- ✓ A single platform to sell, stock and purchase.
- ✓ Real-time business information to decide better.
- ✓ Cloud operation: no servers of your own to maintain.
- ✓ Backed by New Soft Ideas and 12+ years of experience.

Modernize your point of sale
